Navi Mumbai is part of the Mumbai Metropolitan Region (MMR). The city is divided into two, North Navi Mumbai and South Navi Mumbai, for the individual development of Panvel Mega City, which includes the area from Kharghar to Uran, including the Talaja node. The Agri and Koli Communities mainly reside in Navi Mumbai. Navi Mumbai was the host city for the inaugural final of the IPL (2008) at D.Y. Patil Stadium. Thane Belapur Marg and Palm Beach Marg are major business attraction and upmarket residential areas respectively. Navi Mumbai has a population of 1,119,477[1] as per the 2011 provisional census. It has an average city elevation of 14 meters, excluding forest area. The city's or area history dates back to late 1500's when Siddis of Janjira built the Belapur Killa located atop a hillock, near the mouth of the Panvel Creek. In 1682, the fort was captured by the Portuguese, who had managed to annex the regions controlled by the Siddis, near Belapur. In 1733, the Marathas, led by Chimaji Appa, wrested control of the fort from the Portuguese. He had made a vow that if it were to be successfully recaptured from the Portuguese, he would place a garland of bell leaves in a nearby Anantushaishwar temple, and after the victory the fort was christened as Belapur Fort. The Marathas ruled the area until 23 June 1817, when it was captured by Captain Charles Gray of the British East India Company. The British partially destroyed the fort under their policy of razing any Maratha stronghold in the area. The area was proposed in 1971 as a new urban township of Mumbai by the Government of Maharashtra. A new public sector undertaking, CIDCO, was established for this purpose.[2] Navi Mumbai is situated across two districts, Thane and Raigad.[3] The city has been ranked 3rd among 73 cities surveyed for cleanliness and hygiene by the Union Ministry of Urban Development (MoUD) and Quality City of India (QCI) as a part of Swachh Bharat Abhiyan.[4] Majority of Infrastructure and buildings are made & owned by Government of India. Navi Mumbai is home to various educational institutions offering courses in several streams including engineering, medical sciences, interior designing, and hotel management. Various multinational corporations like ACG Group, AGS Transact Technologies, Aplab, Siemens, McDonald's, Morningstar, Inc., Baker Hughes, Bureau Veritas, Bizerba, CRISIL, 1 Defence Security Solutions, Reliance, Mastek, Accenture, Selcore Technology, Hexaware Technologies, firstsource, Hinduja Group, IKEA, Larsen & Toubro, VENUS Safety and cyber security multinational Velox have their head offices/branches across the city, making it an active business hub. Navi Mumbai also has various recreational facilities such as a Golf Course, Central Park and Pandavkada Water Falls in Kharghar, Parsik Hill near CBD Belapur, Wonders Park and Jewel of Navi Mumbai in Nerul and Seawoods, Mini Seashore Juhu Chowpatty in Juhu Nagar (Juhu Gaon), Sagar Vihar in Vashi, Pirwad, Nagav, and Mankeshwar Beaches in Uran, in Belapur Killa CBD Belapur, Kamala Bird Sanctuary near Panvel, and several other public places like gardens and jogging tracks. Navi Mumbai also has many quality restaurants and luxury hotels for accommodation. There are many shopping malls, such as Seawoods Grand Central Mall in Seawoods, Little World Mall, Glomax Mall and Prime Mall in Kharghar, Orion Mall and K-Mall in Panvel, Centre One Mall, Inorbit Mall, Raghuleela Mall, Citi Centre and Palm Beach Galleria in Vashi. Navi Mumbai is also a host to many best health care centres and hospitals like MITR Hospital in Sector 05, Kharghar, Fortis Hiranandani Hospital near Juhu Village, Juhu Nagar (Vashi), Apollo Hospital in Belapur and SRL diagnostic centres in Kharghar, Panvel, Kamothé, Kalamboli, Kopar Khairane, Juhu Gaon to name a few. History This section relies largely or entirely upon a single source. Relevant discussion may be found on the talk page. Please help improve this article by introducing citations to additional sources. (August 2022) (Learn how and when to remove this template message) India experienced a phenomenal rate of urban growth during the 25 years following independence and Mumbai always has had its due share in it. The population of Greater Mumbai rose from 2.966 million in 1951 to 4.152 million in 1961 and to 5.970 million in 1971, registering 40.0 and 43.80 percent growths during the first and second decades respectively. The rapid rate of growth of population, made possible by the increasing industrial and commercial importance of the city, resulted in a fast deterioration in the quality of life for the majority of people living in the city. Development inputs could not keep pace with the rapidly growing population, industry, trade and commerce. Besides, there are physical limitations to the growth of a city built on a long and narrow peninsula, which has very few connections with the mainland. The Government of Maharashtra has been alive to the emerging problems of this metropolis. Responsible public opinion was equally vigilant and several constructive suggestions appeared from time to time in the press and elsewhere. All this helped in keeping the problems of Bombay in the forefront of public awareness. In 1958, the Govt. of Bombay appointed a study group under the Chairmanship of Shri L. G. Rajwade, I. C. S. The Draft Regional Plan of the Board was finalised in January 1970. It proposed the development of a twin city across the harbour, on the mainland to the east, as a counter-magnet to the office concentration taking place at the southern tip of Bombay. The alternative growth pole was to siphon off the over-concentration of jobs and population which further growth would cause in the city and reallocate these on the mainland. In making this recommendation, the Board was influenced by various factors such as the existing industrial sites in the Thane-Belapur area and Talaja, the imminent completion of the Thane Creek Bridge and the proposal of the Bombay Port Trust to establish a new port at Nhava Sheva. The Board recommended that the new metro-centre or Navi Mumbai as it is now called, be developed to accommodate a population of 2.1 million.[5] Implementation, development and issues Navi Mumbai traffic at rush hour Low Income housing facilities in Navi Mumbai Vashi, Navi Mumbai Skyline of Nerul, Navi Mumbai Seawoods Grand Central Mall, Navi Mumbai Utsav Chowk at Kharghar The planning of Navi Mumbai began in 1971 and involved leading architects and urban planner like Charles Correa (Chief Architect), Shirish Patel, Pravina Mehta[6] and R. K. Jha (Chief Planner).[7] The City and Industrial Development Corporation (CIDCO) was established on 17 March 1971, under the Indian Companies Act, 1956 for this purpose. The area covered 150 kilometres (93 mi) of the total 720 kilometres (450 mi) of the Konkan coast. Privately owned land consisting of 86 villages covering 15,954 hectares (39,420 acres) within the present limits of Navi Mumbai and further villages measuring an additional 2,870 hectares (7,100 acres) were acquired by the government of Maharashtra.[8] Navi Mumbai covers the southern part of Thane taluka (from Thane District) and part of Panvel and Uran talukas (from Raigad District). CIDCO carved out 19 small nodes with a view towards facilitating comprehensive development. These nodes were named Airoli, Ghansoli, Kopar Khairane, Juhu Nagar, Vashi, Turbhe, Sanpada, Juinaagar, Nerul, Darave, Karave Nagar, CBD Belapur, Kharghar, Kamothé, New Panvel, Kalamboli, Ulwe, Dronagiri and Talaja. CIDCO planned and constucted all the railway stations, roads and public spaces in Navi Mumbai and developed nearby areas commercially. Vashi Bridge across the creek in Vashi, Turbhe bridge across the creek in Turbhe and the Panvel bridge across the creek in Panvel were opened to the public for residents of Vashi, CBD Belapur and Nerul. The Sion-Panvel Highway was built to reduce the time taken to travel from Sion to Panvel. Initially, there was not much response to the new city. Major changes took place only after 1990, with the commissioning of a wholesale agricultural produce market at Turbhe and the construction of a commuter railway line from Mankhurd to Vashi in May 1992. These developments caused a sudden growth in economic activities and population in Navi Mumbai. The city was originally planned to create affordable housing for people who could not afford living in Mumbai. It was decided not to let any slum pockets pop up across the city. But it failed, as, according to the 2001 census, a fifth[9][10] to a third[11] of the population of municipalised Navi Mumbai lives in slums [12] and gaothans (urban villages).[8] with thousands of buildings violating planning norms.[13] By the end of the 1990s, the planning authority of Navi Mumbai initiated private participation in the developmental activity of Navi Mumbai. A new railway link between Nerul and Uran was inaugurated on 11 November 2018.[14] Southern Navi Mumbai is being developed rapidly with its class infrastructure and modern nodes of Kharghar, Kamothé, Panvel and Kalamboli. These nodes are experiencing major infrastructural developments due to their proximity to the proposed Navi Mumbai International Airport. Also, the latest development known as ‘One Time Planning’ with an estimated budget of ₹12,821 crores is underway to transform the municipalised Navi Mumbai on the lines of the Mega Cities of the world. Administration CIDCO When Navi Mumbai was created in the 1970s, CIDCO was the only authority that looked after the development and maintenance of the city. CIDCO prepared a developmental plan for Navi Mumbai covering 95 villages all over the city. Navi Mumbai streets at night For the first ten years of the project CIDCO acted as the planning and administrative body and as the developer and builder for the project. Taxes on property, land, commercial and water were payable to CIDCO. CIDCO planned 14 nodes divided into the North and South. [15] The 7 nodes in the North part are Airoli's Ghansoli node, Kopar Khairane node, Vashi node, Sanpada node, Nerul node and Belapur node. The 7 nodes in the South part are Kharghar node, Kamothé node, Kalamboli node, Pushpak Nagar node, Pashan node, Ulwe node and Dronagiri node. Also, two municipal bodies have been established, Navi Mumbai Municipal Corporation (NMCM) in the North and Panvel Municipal Corporation in the South. Each of the nodes is divided into smaller groups called sectors. Initially only Juhu Nagar, Vashi, Nerul and CBD Belapur were developed by CIDCO with housing, schools and community centre roads. But after the arrival of the harbour railway line extension in the 1990s, there was an increase in population. CIDCO shifted its development plan to nodes like Kharghar, Kamothé, New Panvel and Kopar Khairane. In its new development plan, CIDCO land was allocated to builders for housing. CIDCO only provided basic infrastructure like roads, water and electricity, these nodes were developed mostly by private builders according to the CIDCO plan. The newly developed nodes of Navi Mumbai on the south side like Kharghar, Kamothé, New Panvel and Kalamboli are maintained by CIDCO. These nodes, which are all beyond CBD Belapur, come under the Raigad district. NMCM on 17 December 1991, Navi Mumbai Municipal Corporation (NMCM) was constituted by the state government for maintaining some of the developed nodes of Navi Mumbai. Local self-government started on 1 January 1992. NMCM was handed seven of the 14 nodes of the Navi Mumbai project area for its jurisdiction. However, CIDCO, as a planning authority, has rights on the open plots in these seven nodes. The NMCM jurisdiction starts at Digha in the North and ends at Belapur in the South.[16] The NMCM area is planned into seven nodes (zones). The nine nodes are Belapur node, Nerul node, Sanpada Node, Vashi node, Kopar Khairane node, Ghansoli node and Airoli node. NMCM Main Building Navi Mumbai Municipal Corporation is rated amongst the richest corporations in Maharashtra. The municipal corporation is headed by a municipal commissioner and an elected mayor. Currently, due to delayed in corporation election, the commissioner of corporation Mr. Abhijeet Bangar takes the charge of administrator for management of Navi Mumbai Corporation until next elections. PMC Recently a resolution has been passed by the general body of the Panvel Municipal Council (PMC), which previously administered the city of Old Panvel spread across an area of 12.11 sq. km, with a population of 1.8 lakh (0.18 mn), lead to upgrade the Municipal Council to a Municipal Corporation.[17] [18] But the minimum requirement for the formation of a Municipal Corporation is having a population of at least 300,000 which the Council falls short of. Hence, a decision has been made by the PMC to incorporate the adjacent nodes of Navi Mumbai under CIDCO's jurisdiction and surrounding villages in the proposed Panvel Municipal Corporation. This would add another 593,000 people under its administration.[19] thereby clearing the first hurdle. The decision propounds that instead of merging the administration of newly developed nodes of Navi Mumbai including New Panvel, Kamothé, Kalamboli, Kharghar, parts of Uran and developing nodes of Ulwe and Dronagiri, which are currently overseen by CIDCO, with NMCM, they should be incorporated under the proposed Panvel Municipal Corporation. This opinion is the result of a political agenda. The fact is, of the total 14 nodes of Navi Mumbai 7 are under NMCM and the rest are under CIDCO. NMCM's jurisdiction is limited within the boundaries of the Thane district, which is a foothold of the Nationalist Congress Party, while the remaining nodes are in the Raigad district, where parties like Bharatiya Janata Party, Shiv Sena and Peasants and Workers Party of India are most active. Hence, the local politicians, especially Panvel MLA Prashant Thakur, oppose the merger of all the nodes under one Municipal Corporation citing political conspiracy.[20][21] In Panvel Municipal Corporation BJP is in power and Peasants and Workers Party of India leading the opposition represent by Pritam Mhatre.[22] The proposal is to be tabled before the Maharashtra State government which has appointed an expert committee to study the feasibility of the demand to upgrade the Panvel Municipal Council to a Municipal Corporation.[17] But there is some discontent among the residents of the Kharghar node. The residents and some NGOs from Kharghar have voiced their demand for Kharghar to be inducted under NMCM as it would provide them with better civic amenities and would make Kharghar eligible to be a part of the proposed plan of making Navi Mumbai a Smart City which includes only the area under NMCM's jurisdiction [23] But, in actual, CIDCO South Navi Mumbai will be NMCM's second smart city. The other one being the North Navi Mumbai, which is under NM
